A time lag is required between physical and biological reclamation for stabilization of back filled dump. Plantation is being done through Government agency and about 2500 plants per hectare are being planted.

(b) The progress of reclamation and rehabilitation of mined out land in MCL is satisfactory. The status of reclamation and rehabilitation of excavated areas of MCL as on 01.11.2004 is given below:—

(Ha.) Total area of land excavated & required to be reclaimed	(Ha.) Area of land physically or technically reclaimed	(Ha.) Area of plantation done on reclaimed land
2338	1645	1116

Total 37 lakhs plantation has been done in MCL since its inception.

All the excavated area cannot be backfilled because of technical reasons like minimum area required for movement of men and machinery in the active areas.
